

6-1: Build the following form/subform using the form wizard:

1. First, build a query based on tbl_VisitDetails and tbl_Service. This query is used for the subform.
2. Include VisitNumber and ServiceID from tbl_VisitDetails and Price from tbl_Service.
3. Save the query as qry_InClassPractice6_1.
4. Run the form wizard and use tbl_Visits for the main form and qry_InClassPractice6_1 for the subform. Include the fields as shown on the right:
5. Save the main form frm_InClassPractice6_1 and the subform frm_InClassPractice6_1_sub.
6. Navigate to design view, select the label that displays frm_InClassPractice6_1_sub and then delete it. Move the subform over to the left
7. Close the forms and then open the subform frm_InClassPractice6_1_sub only in design view.
8. Now select just the ServiceID textbox control and delete it.
9. In the Design Ribbon, select the combo box control and place it in the same place where you just deleted the ServiceID textbox control. Drag a little rectangle and let the mouse button go. The combo box Wizard is launched.
10. Set this combo box to lookup the ServiceID and the Medication/Treatment field from tbl_Service. Bind the combo box control to the ServiceID field on the underlying subform. In the last step, set the label to Medication/Treatment.
11. Save the subform and close it. Now open the main form (frm_InClassPractice6_1) and view the form. You may need to rearrange the fields in the subform. Simply select the entire column Medication/Treatment and move it to the left. Your final form should look like as shown above:

Price	Treatment/Medication
\$2.00	Aspirin - 100 mg
\$7.80	Zinc Oxide - 4 oz
\$8.00	Dual Antibiotic - 8 oz
\$75.00	Sterilize Area
\$50.00	General Exam
\$75.00	Respiratory Exam
\$57.00	Anesthetize Patient
\$20.00	Haircut

Price	Treatment/Medication
\$2.00	Aspirin - 100 mg
\$7.80	Aspirin - 100 mg
\$8.00	Tylinol - 200 mg
\$75.00	Tylinol - 400 mg
\$50.00	Aspertane - 100 mg
\$75.00	Aspertane - 200 mg
\$57.00	Aspertane - 400 mg
\$20.00	White Petroleum Jelly
	Zinc Oxide - 1 oz
	Zinc Oxide - 4 oz
	Zinc Bi-Oxide - 2 oz
	Lanoline Hydrous - 2 oz

6-2: Create a pets form as a split form as shown below. Change the caption and the title to Pets. Save it as frm_InClassPractice6_2.

PetName	TypeOfAnimal	Breed	DoB	Gender	Colors	Length (In)	Weight (lbs)
Bobo	RABBIT	Long Ear	Wed, Apr 8, 1992	M	Brown/Black/White	0.00	3.1
